**for the educational and scientific program "Social Work"**  
**training of applicants for the third (educational and scientific) level of higher education in**  
**the field of knowledge 23 Social work, specialty 231 Social work at Uman State Pedagogical**  
**University named after Pavlo Tychyna**

The educational program for the training of doctors of philosophy in the specialty 231 Social work is developed in accordance with modern requirements, taking into account the latest trends in the reform and modernization of higher education. The program is based on the main provisions of the Law of Ukraine "On Education" (2017), the Law of Ukraine "On Higher Education" (2014, as amended); Regulations on the organization of the educational process at Uman State Pedagogical University named after Pavlo Tychyna (new edition) (2021); Regulations on educational programs at Uman State Pedagogical University named after Pavlo Tychyna (2021); The order of preparation of applicants for higher education for the degree of Doctor of Philosophy and Doctor of Science in higher education institutions (scientific institutions), approved by the Resolution of the Cabinet of Ministers № 261 dated March 23, 2016 (as amended, Resolution of the Cabinet of Ministers № 283 dated April 03, 2019); Regulations on postgraduate studies at Uman State Pedagogical University named after Pavlo Tychyna (dated June 21, 2016, as amended); the project of the State standard of higher education of applicants of the third (educational and scientific) level of a specialty 231 Social work (2018); National Qualifications Framework (Resolution of the Cabinet of Ministers № 1341 of November 23, 2011, as amended on June 25, 2020 № 519); "Methodological recommendations for the development of standards of higher education", approved by the higher education sector of the Scientific and Methodological Council of the Ministry of Education and Science of Ukraine (Minutes of March 29, 2016 № 3); instructional and methodological recommendations for the development of curricula and educational programs of the degree of Doctor of Philosophy in specialty 231 "Social Work" at the Faculty of Social and Psychological Education of Uman State Pedagogical University named after Pavlo Tychyna (2021); professional standard for the group of professions "Teachers of higher education institutions" (order of the Ministry of Economic Development, Trade and Agriculture dated March 23, 2021 № 610); other regulations.

The educational and scientific program was developed and updated (2021) by the project team of the Department of Social Pedagogy and Social Work of Uman State Pedagogical University named after Pavlo Tychyna. The guarantor of the educational program is Doctor of Pedagogical Sciences, Professor, Professor of the Department of Social Pedagogy and Social Work of Uman State Pedagogical University named after Pavlo Tychyna Kolyada Nataliia Mykolaiivna.

The main goal of the educational and scientific program is to provide higher education students with the ability to solve complex problems in the field of professional and / or research and innovation activities; ability to demonstrate significant authority, innovation, high degree of independence, academic and professional integrity, consistent commitment to the development of new ideas or processes in the advanced contexts of professional and scientific activities; ability to continuous self-development and self-improvement; development of professional-scientific and research-innovative activity in the field of social work.

The peculiarity of the educational and scientific program is that it focuses on fundamental and special training of highly qualified scientists who are able to solve complex problems in the field of social work through research and carry out research, management and applied professional activities.

The theoretical content of the subject area are concepts, patterns, principles, concepts that form the professional competence of the scientist in the field of social work. The educational program is focused on preparation for the implementation of research, management and applied activities; the ability to solve complex problems in the field of professional and / or research and innovation, which involves a deep rethinking of existing and production of new holistic knowledge, as well as conducting their own research, the results of which have scientific novelty, theoretical and practical significance.

Structurally, the educational and scientific program provides for: integrated, general and professional competencies; program learning outcomes; list of educational components and their logical sequence; description of the scientific component of the training of doctors of philosophy; form of certification of applicants for higher education; program description; structural and logical scheme; matrix of compliance of program competencies with program components; the matrix of providing program learning outcomes with the relevant components of the educational and scientific program.

Thus, the analysis suggests that the educational and scientific program is characterized by a high scientific and methodological level, consistently reveals the theoretical and practical components of the training of doctors of philosophy and takes into account the best domestic and foreign experience. Therefore, there are reasons to believe that the educational and scientific program "Social Work" training third (educational) level of higher education in the specialty 231 Social Work at Uman State Pedagogical University named after Pavlo Tychyna is relevant, meets current requirements for educational programs, allows to form competencies that are necessary for the successful solution of scientific problems in the field of social work, and can be recommended for implementation in the educational process.

REVIEWER – I recommend the educational and scientific program "Social Work"
