**named after Pavlo Tychyna**

The educational and scientific program for the preparation of Doctors of Philosophy in the specialty 011 Educational, Pedagogical Sciences at Pavlo Tychyna Uman State Pedagogical University was developed by the project group of the Department of Pedagogy and Educational Management, aimed at training highly qualified, competitive specialists capable of solving complex problems in the field of education and pedagogy, which involves a deep rethinking of existing and production of new holistic knowledge, as well as conducting their own research, the results of which are

The reviewed program has a holistic, logical complete character; the consistency of the content of general and professional competencies with the program learning outcomes is impressive; the focus is on achieving the goal of training a doctor of philosophy who is able to produce new ideas, solve complex problems in the field of education and pedagogy, apply modern methodologies of scientific and pedagogical activities, conduct their own research, the results of which have scientific novelty, theoretical and practical significance.

The educational and scientific program is logically and consistently structured: the list and scope of compulsory and elective courses correspond to the content of the training of Doctors of Philosophy in the specialty 011 Educational and Pedagogical Sciences and are aimed at ensuring the compliance of effective learning outcomes.

The advantage of the program is the academic mobility of applicants. of the third educational and scientific level, their participation in the educational process of the university and partner educational institutions; practical orientation

of the program, which is evidenced by the separation of educational components of professional, practical training and a number of elective disciplines of a practical nature.

A positive impression is also made by the balance of the content training of doctors of philosophy as researchers and teachers; the staffing of this program corresponds to the profile of the disciplines taught.

Thus, the educational and scientific program for the preparation of Doctors of Philosophy in the specialty 011 Educational, Pedagogical Sciences at Pavlo Tychyna Uman State Pedagogical University corresponds to the declared third level of higher education and is aimed at forming professional competencies, the necessary program learning outcomes for students and meets the current needs of potential employers in the educational sector.
